

Neovision Wealth Management Joins Abu Dhabi Sustainable Finance Declaration

Neovision Wealth Management proudly reaffirms its commitment to sustainability at the recently concluded Abu Dhabi Finance Week (ADFW), having become a signatory of the Abu Dhabi Sustainable Finance Declaration in September 2024. This milestone is particularly significant in light of the discussions at the Abu Dhabi Sustainable Finance Forum (ADSFF) 2024, held last week during ADFW, which emphasized the importance of ESG principles in shaping the future of finance.

By joining the declaration, Neovision Wealth Management has aligned itself with leading organizations dedicated to promoting sustainable economic growth and embedding environmental, social, and governance (ESG) values into the financial ecosystem.

"By signing the Abu Dhabi Sustainable Finance Declaration, Neovision reaffirms its dedication to sustainable finance principles and aligns with the strategic vision outlined at the recent Abu Dhabi Sustainable Finance Forum," stated Ashish Marwah, Director and Chief Investment Officer at Neovision. "We are committed to actively contributing to a more sustainable financial future while ensuring long-term value creation for all stakeholders."

Neovision Wealth Management remains committed to leveraging innovative ESG-focused investment strategies and funds to create long-term value while advancing sustainability objectives across the financial sector.
